

KS1 ideas for improving our school environment

Areas studied	Comments	Suggestions
Mrs P's room	Old & defaced furniture, messy walls	New chairs & carpet Paint around the whiteboard
Front entrance	Boring & unfriendly	Plant flowers around the door Make a 'welcome' sign - designed by us
Hall	We don't like sitting on a dirty floor. Drinking water tap won't turn off	Have recycling bins for composting food Have mats for wiping shoes at all entrances Stop the tap from dripping
Quiet grassy area	We're not allowed in there when the grass is wet. There's not much to do	Make a stepping stone walkway Have a canopy or willow sculpture
Side play area	There's not much to do	Get more climbing equipment Make some homes for wild animals Can we have a gardening patch?
Library	It's too confusing & gets messy	Everyone should learn how to put the books back properly Make more space
Miss M's room	The working wall takes up too much space The floor gets dirty Our toys get damaged	Move the drawer units to make more space Everyone should wipe their shoes Vandals should be punished
Big playground	The big children's goals are too small The fruit peel goes in the litter bin There's not much to do	Get bigger ones Move the compost bin to a more central position Can we have some new playground markings?
Shared area	We like everything about it!	Don't do anything
