Activity 5 - Japan’s natural hazard profile

Student tasks:

They have a serious message about Japan’s Natural Hazard Profile. Can you work out what it is and express it in no more than five sentences?
Research recent case studies to create fact files about four Natural Hazards Japan experiences: Volcanoes, Earthquakes, Tsunami and Typhoons.

Explain the reasons why Japan is so prone to natural hazards and how prepared you think the country is for each of the four natural hazards?

Create your own cartoon or storyboard to express a serious message about Japan’s Hazard Profile.
