Digimap for Schools provides pupils and teachers access to seamless Ordnance Survey mapping covering the whole of Great Britain. This online service gives users 12 different scales of maps, including digital versions of the Landranger & Explorer series. The large scale maps at 1:1250 give pupils the most detailed mapping of their local area.

As well as viewing your locality through up-to-date maps, you can also explore using two different historical layers from the 1890s and 1950s. You can also view high resolution aerial imagery for the whole country. All the different data sets can be viewed individually or overlaid on each other. You can drape the modern map with either historical map to show change over time, or overlay imagery on the modern or historical map.

You can also access millions of images of Great Britain than have been collected via the Geograph® website. You can view geo-referenced images by searching for a geographical term or just view all the images for your own locality.

Using the annotation tools users can customise their maps by adding labels and symbols, drawing routes and polygons, and adding your own pictures. These maps can then be saved or printed at A4 or A3.

Over 60 free resources complement the service. Created by educational experts, the resources are linked to the national curriculum. The resources are focused on geography, but also have been designed to show the cross-curricular potential of the service. Digimap for Schools is not just a geography tool, but a whole school resource.

An annual subscription covering the whole school is just £69. Go to http://digimapforschools.edina.ac.uk for details.
Welcome to the 2018–19 Geographical Association Primary Resources Catalogue

The Geographical Association (GA) is the leading subject association for all teachers of geography, and our acclaimed publications are used in classrooms around the world.

We aim to make primary geography as fun and engaging as possible through innovative teaching ideas and activities. To save you time, many of our publications include ready-to-use lesson plans, worksheets and supporting resources.

The 2018–19 catalogue includes a broad range of practical teaching resources for Early Years, key stage 1 and key stage 2. Topics include rivers, volcanoes, coasts, climate and weather, the local area, fieldwork and distant places. It also features a selection of maps, atlases and globes and our ever-popular Barnaby Bear product range.

NEW TITLES for 2018–19 include:

• SuperSchemes: Investigating local fieldwork – our street
• SuperSchemes: Investigating local fieldwork – our town
• In the Know: Mountains and Volcanoes
• In the Know: Settlements (See pages 6 and 18 for details)

Further information and free samples are available at www.geography.org.uk/shop

All prices are inclusive of VAT where applicable.

This series demonstrates quality geography that will endure curriculum change. It provides all you need to teach creative and enjoyable lessons. Each title includes:
- a 36-page book containing eight fully-resourced lesson plans with starter, main and plenary activities
- supporting resources including activity sheets, PowerPoints and photosets
- a medium-term plan
- background information for teachers.

The resources can be downloaded from a password-protected area of the GA website or purchased on CD.

Amazon Adventures: Investigating the South American Rainforest
Des Bowden and Pam Copeland
This unit will enable pupils in years 3–4 to begin to recognise the issues and challenges facing future generations concerned with the loss of the rainforest and to investigate the physical, human and environmental geography of the Amazon rainforest.

Australia Here We Come! Exploring a distant place
Wendy North and Ann Hamblen
This unit uses stories, including reports from children, fiction and aboriginal dreamtime, to enable pupils in years 1–3 to explore the vast country of Australia and investigate the geographical similarities and differences of this contrasting distant place.

Beside the Sea: Investigating the UK’s coastal environments
Nell Seal and Louise Ambrose
This unit will help pupils in years 4–6 to extend their knowledge and understanding of the UK’s coastline. Investigations include coastal processes and protection, biodiversity, human activities and economics and the future.

Food for Thought: Investigating where our food comes from
Sue Parsons and Marcia Foley
This unit will help pupils in years 3–4 to explore food through investigations incorporating history and origin, seasonality, weather and climate, food miles and trade, regional specialities, food processing, distribution inequalities and the future of food supply.

Little Blue Planet: Investigating spaceship Earth
Paula Owens
This unit will help pupils in years 1–3 to develop their knowledge about the world, its continents and oceans, to use maps and globes, and to investigate why oceans, plants, rivers and bees are so important.

Living in the Freezer: Investigating polar environments
Paula and Tony Richardson
This unit will help pupils in years 3–4 to extend their knowledge of the world through exploration of the polar regions. Pupils will investigate the climate and vegetation in these zones and how these impact on life there.

The UK: Investigating who we are
Stephen Scoffham and Terry Whyte
This unit will help pupils in years 4–6 to extend their knowledge and understanding of the UK, its human and physical geography, and what living there is like in the early 21st century.
This series provides primary teachers with the means to develop geography units of work with confidence. Each book includes:
- advice and guidance on how to approach the topic
- an explanation of the geography rooted in the unit and background information
- medium term plan
- detailed plans and resources for two lessons
- ideas for developing the remaining four lessons.

Resources, including activity sheets, PowerPoint presentations and a copy of the medium term plan, are available to download using your password included with the book.

Investigating local fieldwork – our street
Paula Richardson
Through effective but manageable fieldwork activities and classroom ideas that can be easily applied to an investigation in any local street, pupils will understand the physical and human features that make up our local streets, the role of different features of streets, needs of their users, and change in the local area. They will use fieldwork to explore the school’s local area and learn how to record, analyse and present their findings.

Investigating local fieldwork – our town
Paula Richardson
Through effective but manageable fieldwork and classroom ideas that can be easily applied to an investigation of any town, pupils will observe, measure and record the human and physical features of a local town, using a range of methods including photographs, sketch maps, plans, graphs and digital technology. They will use fieldwork to explore land use, environmental quality and traffic issues, and learn how to record, analyse and present their findings.

A Journey Through the Americas: Investigating latitude and longitude
Simon Collis
In this unit key stage 2 pupils plan a trip from the north of North America to the southernmost tip of South America to develop their understanding of latitude, longitude, time zones and the key aspects of climate zones.

Global Connections: Investigating world trade
Ben Ballin
This book will enable all primary teachers to teach about global trade. The unit aims to help pupils in key stage 2 to learn about our increasingly globalised economy, and its impacts on our communities and others around the world.

Investigating Climate and Biomes
Simon Collis
Pupils will develop an understanding of how climate influences the development of biomes around the world and how plants and animals are adapted to their different environments.

Barnaby Bear Investigates the UK
Emily Rotchell
Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the UK’s countries and capital cities, seasons and weather and key physical and human geography.

Barnaby Bear Investigates the World
Emily Rotchell
Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the world’s continents and oceans and the hot and cold areas of the world using maps and globes.

Investigating Rivers
Andrew Turney, Paula Richardson and Ruth Totterdell
Pupils in key stage 2 learn about the physical processes connected with rivers and the formation of river landscapes and the interaction between physical and human environments through river flooding.

Investigating Water
Des Bowden and Pam Copeland
Pupils will understand the importance of water for life on the planet and learn about varying water supplies in the UK and around the world and the importance of clean drinking water.

Investigating Mountains and Volcanoes
Tony Richardson
This unit will help pupils in key stage 2 to learn the main features of mountains and understand how they are formed. They will also learn about volcanoes, where and why they occur, with a focus on Mount Vesuvius in Italy.

Investigating Major World Cities: London
Rita Casey
This book will help pupils explore London’s population, location, weather and climate, and the role attractions, transport, parks and the River Thames play in its popularity as a world-class tourist destination.

Barnaby Bear

Big books
Elaine Jackson

These 28-page large format books, designed for group reading, bring geography to life through a delightful story. Each book comes with extensive cross-curricular follow-up activities, photocopiable worksheets and teachers’ notes.

Barnaby Bear and the Badger Tunnel
Barnaby and his classmates explore a woodland through maps and look for solutions to a local environmental issue.

Barnaby Bear at the Seaside
On holiday in Poole, Barnaby goes to the beach, helps rescue two little boys adrift in their dinghy, and learns about the work of the RNLI. Also available as an eBook.

Barnaby's Edinburgh Diary
Barnaby writes a diary about his school trip to Edinburgh, where they visit Arthur’s Seat, a tartan factory, Princes Street, Edinburgh Castle and the Royal Mile.

Barnaby Bear goes to Norway
Elaine Jackson
Barnaby and his parents holiday in the Arctic Circle and learn about the landscape, lifestyle and customs of the ‘Land of the Midnight Sun’.
Barnaby Bear's UK Map
This A1 dry-wipe wall map of the UK will enable key stage 1 pupils to develop their locational knowledge and name and locate the four countries of the United Kingdom. You can annotate it to suit the needs of the moment then simply wipe off ready for next time.

Barnaby Bear Investigates the UK
Emily Rotchell
Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the UK’s countries and capital cities, seasons and weather and key physical and human geography. See page 6 for further information.

Barnaby Bear Investigates the World
Emily Rotchell
Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the world’s continents and oceans and hot and cold areas. See page 6 for further information.

Barnaby’s Brittany Bingo
Peter Bloomfield
Containing 54 colourful playing cards and six sturdy base cards, this is a fun matching bingo game. It will help develop cross-curricular skills, geographical vocabulary, sequencing and observation.

Barnaby Bear’s World Map
This A1 dry-wipe wall map of the world will develop key stage 1 pupils’ knowledge of the world’s continents and oceans and hot, cold, wet and dry areas of the world in relation to the equator and the poles.

Barnaby Bear’s Local Area Album
Kerry White
Barnaby Bear introduces pupils to his home area. Pupils then create their own album using the 14 downloadable templates and investigate their local area using simple fieldwork and observational skills. Also includes a pdf version for IWB use.

Barnaby Bear glove puppet
This delightful glove puppet is designed for shared reading of the Barnaby big books and is an ideal companion to accompany pupils in their investigations.

Barnaby Bear stamp
A high quality, clear impression stamp that doesn't smudge or blur, the Barnaby Bear 'Well done!' stamp is a fun yet purposeful way for teachers to reward good work.

Order online at www.geography.org.uk/shop
### Key stage 1

- **Australia Here We Come! Exploring a distant place**
  - **Wendy North and Ann Hamblen**
  - Eight fully-resourced lesson plans with activity sheets, PowerPoints and photosets. See pages 4–5 for more information.

- **Barnaby Bear Investigates the UK**
  - **Emily Rotchell**
  - Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the UK’s countries and capital cities, seasons and weather and key physical and human geography. See page 6 for further information.

- **Barnaby Bear Investigates the World**
  - **Emily Rotchell**
  - Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the world’s continents and oceans and hot and cold areas. See page 6 for further information.

- **Caring For Our World: A practical guide to ESD**
  - **Fran Martin and Paula Owens**
  - This 68-page practical guide for teachers demonstrates how pupils aged 4–8 can explore their school grounds and surrounding environment. It uses the experiences of real schools to illustrate six themes through a range of inspiring yet easily replicable examples.

- **Little Blue Planet: Investigating spaceship Earth**
  - **Paula Owens**
  - Eight fully-resourced lesson plans accompanied by activity sheets, PowerPoints and photosets. See pages 4–5 for more information.

- **Caring For Our World: Investigating spaceship Earth CD**
  - **Little Blue Planet: Investigating spaceship Earth**
  - **Paula Owens**
  - Eight fully-resourced lesson plans accompanied by activity sheets, PowerPoints and photosets. See pages 4–5 for more information.

The Everyday Guide to Primary Geography: Local Fieldwork
Julia Tanner and Jane Whittle
This title demonstrates how familiar local places such as streets, buildings and parks provide numerous rich opportunities for practical local investigations. See page 19 for more information.

Primary fieldwork fold-out guides (pack of 10 titles)
Stuart May and Paula Richardson
Fieldwork is a great way to engage your pupils with the geography they learn inside the classroom. This pack of 10 fold-out guides offers ideas for stimulating, practical, informative and enjoyable fieldwork in a range of accessible environments.

Improving the Environment: Access for all
Simon Catling
The activities in this unit involve year 4 pupils in examining and evaluating their school and local environments for their accessibility, identifying ways to make those environments more accessible for all and communicating their proposals.

SuperSchemes: Investigating local fieldwork – our street
Paula Richardson
Through effective but manageable fieldwork activities and classroom ideas that can be easily applied to an investigation in any local street, pupils will understand the physical and human features that make up our local streets, the role of different features of streets, needs of their users, and change in the local area. They will use fieldwork to explore the school’s local area and learn how to record, analyse and present their findings.

SuperSchemes: Investigating local fieldwork – our town
Paula Richardson
Through effective but manageable fieldwork and classroom ideas that can be easily applied to an investigation of any town, pupils will observe, measure and record the human and physical features of a local town, using a range of methods including photographs, sketch maps, plans, graphs and digital technology. They will use fieldwork to explore land use, environmental quality and traffic issues, and learn how to record, analyse and present their findings.

Improving the View from my Window
Sue Parsons
This unit invites pupils in year 4 to analyse the environmental quality of what they observe through their windows. It also introduces pupils to the concept that in other parts of the world children will look out on landscapes that may be very different to their own.

UK and Europe

**The UK: Investigating who we are**
Stephen Scoffham and Terry Whyte
This book explores what it is like to live in the UK in the first part of the 21st century. It sets the scene historically and geographically before considering issues of identity and ethnicity in a multi-cultural society. See pages 4–5 for more information.

**Barnaby Bear Investigates the UK**
Emily Rotchell
Through the well-loved character of Barnaby Bear, key stage 1 pupils learn about the UK. See page 6 for more information.

**Isle of Coll map**
This full-colour A2 map has primary-friendly cartography, simplified keys and an inset of Aringour. The back of the map includes three photocopiable worksheets for activities based on the map. It will help young pupils to learn about the Hebridean island of Coll (‘Struay’ in the Katie Morag stories) through geographical enquiry.

**Looking at Europe**
Paula Richardson and Emma Till
This unit encourages pupils in years 4–6 to develop their understanding of the variety of places, knowledge and cultures that make up Europe. This unit comprises a book plus a CD with background information, activity sheets, a photo set and a medium term plan.

**An Island Home**
Liz Lewis
This unit offers several opportunities for developing work on islands. It offers pupils and teachers a route into some basic physical geography ideas, using practical activities and story to make this more easily accessible for years 2–3.

Distant places

North and South America

Amazon Adventures: Investigating the South American Rainforest
Des Bowden and Pam Copeland
Pupils locate the Amazon rainforest and investigate the physical, human and environmental geography. See pages 4–5 for more information.

A Journey Through the Americas: Investigating latitude and longitude
Simon Collis
Pupils devise a trip from the top of North America to the tip of South America, developing their knowledge of latitude, longitude, time zones, climate and vegetation. See page 6 for more information.

Tocuaro: A Mexican village map
Sue Thomas
Pupils can use this A2 map to develop their understanding of distant places. Includes activities and extension ideas.

Tocuaro Picture Pack
Vincent Bunce, Fiona Gibbs, Wendy Morgan and David Wakefield
Includes eight A2 photoboard, a 32-page teachers’ book and an A1 poster.

Tocuaro Pupils’ Book
Vincent Bunce, Fiona Gibbs and Wendy Morgan
This 36-page book for key stage 2 pupils explores the geography, history and environment of Tocuaro in Mexico.

India

A Village in India
Jo Price
This unit explores how and why village life in India is changing. Starting with the village of Chembakolli, pupils investigate the great diversity of life in India by comparing and contrasting a range of rural and urban localities.

Kenya

Kenya map
Sue Thomas
The A2 Kenya map and its supporting activities encourage pupils to use a globe and atlas to locate Kenya and its neighbours in Africa, and practise their map skills by planning a trip around the country.

The Everyday Guide to Primary Geography: Maps
This title explores the potential for introducing mapwork to stimulate, enliven and enrich geography teaching. It includes a range of practical activities and classroom strategies designed to develop pupils’ knowledge and understanding both about maps and the messages maps provide about the real world.

Barnaby Bear’s World Map
This A1, dry-wipe wall map of the world will enable key stage 1 pupils to develop their locational knowledge of the world’s continents and oceans and locate hot, cold, wet and dry areas of the world in relation to the equator and the poles.

Collins Countries of the World Wall Map
This brightly coloured map of the world’s countries is clearly labelled with country names and oceans making it ideal for teaching the location of places.

Collins First Atlas (second edition)
This atlas introduces pupils aged 4+ to photographs and mapping. It moves gradually through regional, national, continental and world mapping and concludes with global views of the wider world.

Collins Junior World Atlas (fourth edition)
An ideal world reference atlas for primary school geographers aged 8–11 years; enabling pupils to learn about the world today by exploring clear and engaging maps and satellite imagery.

Collins Primary Atlas (fifth edition)
This curriculum-supportive primary atlas for key stage 2 includes informative politically coloured reference mapping of all major world regions.

Collins United Kingdom Wall Map
Showing the four countries as well as major towns and cities this map is ideal for teaching the location of places.

Barnaby Bear’s UK Map
This A1, dry-wipe wall map of the UK will enable key stage 1 pupils to develop their locational knowledge and name and locate the four countries of the United Kingdom. You can annotate it, using dry-wipe pens, to suit the needs of the moment then simply wipe off ready for next time.

Inflatable globe
With over 4000 place names marked, this 30cm globe will help pupils to learn about the world as well as make geography lessons great fun. Teaching ideas for using this resource are available to download from the GA online shop.

Order online at www.geography.org.uk/shop
**Aeroimage Poster (primary)**
This A0 laminated poster features a recent aerial photograph of your school (or other chosen area) alongside an Ordnance Survey map of the same area at the same scale (approx 1:2500).

**Collins UK in Maps**
This multi-topic atlas of the UK introduces key physical and human geography from the key stage 2 curriculum. It can be used to investigate different themes and topics through maps, diagrams, charts, words and photographs.

**Locality maps**
These A2 maps provide activity sheets and support other GA locality resources. Maps include Kenya, Tocuaro and Coll. See pages 12–13 for more information.

**My School Photograph**
A recent A3 aerial photograph of your school (or other chosen area) at a scale of 1:2500.

Physical geography

Climate and environment

Hot, Cold, Wet, Dry?
Margaret Mackintosh
This unit helps pupils to understand how vegetation and landscape are represented on a globe and how this gives clues to the weather. They will discover the pole-to-pole pattern and find out how weather affects the lives of people around the world.

Living in the Freezer: Investigating polar environments
Paula and Tony Richardson
Eight fully-resourced lessons provide a cohesive approach to holistic learning about the polar regions. See pages 4–5 for more information.

Mountains and volcanoes

Investigating Mountains and Volcanoes
Tony Richardson
This unit outlines six lessons on mountains and volcanoes including how to identify mountains, mountain features and how they are formed. See page 6 for more information.

Mountains Poster/ Mountains A3 Desk Mat (set 3)
This poster (also available as a set of desk mats) has colour photographs of mountains from around the world, showing features such as glaciers and canyons, mountain weather and valley settlements, as well as examples of different types of mountain and informative descriptions.

Investigating Climate and Biomes
Simon Collis
Pupils will develop an understanding of how climate influences the development of biomes around the world and how plants and animals are adapted to their different environments. See page 6 for more information.

Beside the Sea: Investigating UK coastal environments
Nell Seal and Louise Ambrose
This book will help pupils to extend their knowledge and understanding of the human and physical geography of the UK’s coastline. See pages 4–5 for more information.

Investigating Climate and Biomes
Simon Collis
Pupils will develop an understanding of how climate influences the development of biomes around the world and how plants and animals are adapted to their different environments. See page 6 for more information.

In the Know: Mountains and Volcanoes
Tony Richardson
Clear and concise background information and facts including what makes a mountain not a hill, how different mountains and volcanoes are formed, plus the basics of tectonic plates, pyroclastic flows and other exciting aspects of this popular topic.

Volcanoes Poster and Photopack
This resource pack includes 16 A4 colour photographs exploring and illustrating volcanic activity and its effects. The accompanying poster gives an overview of the topic, looking at the devastation eruptions can cause, how research is conducted and living near a volcano. Teachers’ guide included.

Order online at www.geography.org.uk/shop
Investigating Rivers
Andrew Turney, Paula Richardson and Ruth Totterdell
This unit teaches pupils about the physical processes connected with rivers and river landscapes and the interaction between physical and human environments through river flooding. See page 6 for more information.

Rainforests
Amazon Adventures: Investigating the South American Rainforest
Des Bowden and Pam Copeland
This book will extend pupils' knowledge and understanding of the issues and challenges facing the Amazon rainforest. See pages 4–5 for more information.

Rainforests iPoster
BBC Active
Through stunning video clips, sounds, images and activities pupils investigate this unique ecosystem and develop an understanding of sustainability and why preservation of rainforests is so important.

Rivers
Investigating Rivers Poster
Rivers A3 Desk Mat (set of 3)
This detailed diagram of a typical river from source to mouth, available as a poster or a set of desk mats, can be used to teach about river features. It also includes colour photographs showing examples of waterfalls, gorges, meanders, deltas, estuaries and valleys.

Order online at www.geography.org.uk/shop
In the Know

The In the Know series is designed to help primary teachers with their background knowledge of geographical themes and topics that they are expected to teach. These pdf downloads provide straightforward, accurate and trustworthy background knowledge, explanation, diagrams and glossary on topics in the geography National Curriculum so that teachers can develop their geography teaching with confidence.

In the Know: Mountains and Volcanoes
Tony Richardson
Clear and concise background information and facts including what makes a mountain not a hill, how different mountains and volcanoes are formed, plus the basics of tectonic plates, pyroclastic flows and other exciting aspects of this popular topic.

In the Know: Settlements
Paula Richardson
Clear and concise background information and facts about the development of settlements in Britain from the early settlers to present day, the different boundaries of the islands we inhabit, and exploration of the settlement hierarchy.

Coming autumn 2018
• Rivers and the Water Cycle
• Weather: clouds, wind, precipitation
• Earthquakes and Tsunamis
• Energy and Resources
• Longitude, Latitude, Day and Night
• Climate, Biomes and Vegetation Belts
• Grid References and Map Symbols

You can also buy a selection of chapters as pdf downloads. For more information go to www.geography.org.uk/shop

The Everyday Guide to Primary Geography

Series Editor: Julia Tanner

This series for classroom teachers, trainee teachers and teaching assistants encourages active ‘curriculum making’ by providing stimulating ideas that can be adapted, extended or modified to meet the needs and interests of individual classes and schools.

Each title comprises:
- a 36-page book including background information, numerous tried and tested activities for key stages 1 and 2, and a resources list
- a range of online resources including activity sheets, key vocabulary, additional activities, examples of pupils’ work and links to useful websites.

The resources are available to download using a password included with the book.

The Everyday Guide to Primary Geography: Art
Margaret Mackintosh and Gemma Kent
This title encourages teachers to explore and develop the full potential of a wide range of art genres as the stimulus for geographical work. It provides information about 15 works of art, before both art and geographical activities are outlined.

The Everyday Guide to Primary Geography: Maps
Paula and Tony Richardson
This title explores the potential for introducing mapwork to stimulate, enliven and enrich geography teaching. It includes a range of practical activities and classroom strategies designed to develop pupils’ knowledge and understanding both about maps and the messages maps provide about the real world.

The Everyday Guide to Primary Geography: Local Fieldwork
Julia Tanner and Jane Whittle
This title provides inspiration for a wide range of stimulating fieldwork-based enquiries and demonstrates how familiar places, including the school grounds and surrounding area, can provide numerous rich opportunities for local investigations.

The Everyday Guide to Primary Geography: Story
Julia Tanner and Jane Whittle
This title illustrates how stories can stimulate, enliven and enrich geographical work. It suggests a wide range of practical strategies for using story to develop pupils’ geographical thinking, knowledge and understanding, and extend their skills.

Voyagers

Rising Stars in association with the Geographical Association

Take your class on a voyage of discovery through time and across the world with imaginative, hands-on geography and history lessons. These packs will:

- reinvigorate history and geography with exciting new curriculum projects
- save time with all the best resources at your fingertips in an online resource bank
- improve core English, maths and science skills across the curriculum.

There are six projects across each year, one for each half-term, with lesson plans for each week. These fully flexible lesson ideas are teeming with creative outcomes. Multimedia resources and web links in your Voyagers online resource bank will ensure your lessons are filled with the most awe-inspiring materials available.

GA merchandise

Starting from as little as £4.50, products featuring the GA logo or a ‘Geography is my World’ design can be purchased through the CafePress website. They are the perfect gift for geographers, prizes for pupils or a treat for yourself! Products include t-shirts, sweatshirts, hoodies, bibs, bags, journals, coasters, mouse mats, clocks and mugs. Please note: the GA accepts no responsibility for the product quality nor for any loss or damage in transit. GA members do not receive a discount on CafePress goods as they are a third-party company. Go to www.cafepress.co.uk/gamerchandise

**A Different View posters**
Six of the stunning geographical photographs from *A Different View*, the GA’s manifesto for school geography, are available as A1 posters.

- Geography: Appearances can deceive
- Geography: Energy flows
- Geography: Moving stories
- Geography: Running free
- Geography: To the ends of the Earth
- Geography: Vanishing points

**Badges – pack of 100**
Your pupils will love these ‘Geographer’ badges – perfect for rewarding good work in geography or giving to pupils as a leaving present.

**Postcards – pack of 96**
These packs of postcards can be used to praise or encourage pupils. Each pack contains 96 postcards with eight different eye-catching designs. The reverse is blank for your own message. Download ideas for questions and activities that can be used in conjunction with the cards at www.geography.org.uk/postcards

Primary Geography

Primary Geography is the Geographical Association’s journal for all Early Years and primary teachers.

Every issue of Primary Geography:
• has a themed focus
• contains practical, informative, inspiring and thought-provoking articles to support geography teaching and learning in the primary classroom each term
• is available in print and online
• contains articles supplemented with online extras such as worksheets, further ideas and PowerPoint presentations.

GA membership includes the Primary Geography journal, plus GA Magazine, three times a year. Join online at www.geography.org.uk/join or by using the order form on page 23.

Your membership also gives you free online access to every issue of Primary Geography dating back to Autumn 2004.

Primary Geography Bundles
The articles here have all been previously published in issues of Primary Geography. These bundles are available for download only.

Focus on geographical progression and enquiry in EYFS
These articles provide an overview of geographical enquiry, planning and progression in the Early Years and Foundation Stage. This is illustrated with examples of creative experiences, especially using the outdoor environment.

Focus on geographical progression and enquiry in KS1
These articles provide an overview of curriculum-making, enquiry and progression in key stage 1. This is illustrated with examples of creative outdoor and indoor experiences, most of which integrate two or more subject areas.

Focus on geographical progression and enquiry in Y3–4
These six articles provide exemplification of the process and practice of geographical enquiry, describing teaching strategies that develop visual and numerical literacy through the use of photographs, maps and global statistics. The case is also made for learning outside the classroom, with its use in a special school described. Awe and wonder, fascination, curiosity and creativity are stressed throughout.

Focus on geographical progression and enquiry in Y5–6
These articles look at theoretical, cross-curricular and creative practices for teaching about rivers, in and beyond the classroom; suggest an innovative theme or approach for integrating curriculum content; consider perceived or real influences on the classroom environment; and report on primary to secondary transition. Links between geography and core subjects feature strongly.

Please note these bundles are only available to buy online.
